PROFESSIONAL SUMMARY

Motivated MCA student with a strong foundation in data analytics, machine learning, and full-stack web development. Proficient in Python (Pandas, NumPy, Matplotlib), Java, SQL (MySQL & Oracle), and front-end technologies. Experienced in data preprocessing, ML workflows, and academic project delivery. Eager to leverage analytical and development skills in a professional environment to drive data-driven insights and innovative software solutions.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, PHP, JavaScript

Frameworks & Libraries: Pandas, NumPy, Matplotlib, Bootstrap

Databases: MySQL, Oracle SQL

Web Technologies: HTML5, CSS3, JavaScript, WordPress, PHP

Tools & Platforms: GitHub, MS Office (Word, Excel, PowerPoint), VS Code

Concepts: OOP, DBMS, Data Structures & Algorithms (DSA), Machine Learning Basics, Data Preprocessing, Data Visualization

SOFT SKILLS

Communication • Adaptability • Time Management • Analytical Thinking

EDUCATION

Master of Computer Applications (MCA) — Mandsaur University (MIT), Mandsaur

2025 – Present (Ongoing)

Bachelor of Computer Applications (BCA) — GGTU University, Banswara

July 2022 – April 2025

Higher Secondary (12th Grade) — Board of Secondary Education, Rajasthan (BSER), Ajmer

2022

PROJECTS

Tour & Travel Management System | BCA Final Year Project

- Developed a full-featured web application with 8+ modules including bookings, user management, and travel packages.
- Built a responsive front-end using HTML, CSS, and JavaScript, improving UI accessibility across devices.
- Designed and managed a MySQL database handling 500+ records for users, bookings, and destinations.
- Reduced manual data entry effort by ~40% through automated form handling and structured database queries.

Data Analysis & Visualization (Python) | Academic Project

- Preprocessed and cleaned 10,000+ records using Pandas and NumPy, reducing data inconsistencies by 35%.
- Created 10+ visualizations (bar charts, histograms, heatmaps) using Matplotlib to uncover key data trends.
- Reduced data cleaning time by ~30% through reusable Python scripts for handling missing values and outliers.
- Applied machine learning preprocessing techniques (encoding, normalization) to prepare datasets for analytical models.

CERTIFICATIONS & ACHIEVEMENTS

- GenAI Powered Data Analytics Job Simulation — Tata (via Forage) (2026)
- Python Programming Bootcamp: Interview Prep Special — Indeed Inspiring Infotech (2025)
- Data Analyst Masterclass — PW Skills (2025)
- AlgoArena 1.0 Participant — HackerRank & Mandsaur University (2025)
- National Webinar: Innovate, Build, Pitch – Startup Creation for Engineering Minds — Mandsaur University (IIC & IQAC Cell) (2026)
- Rajasthan State Certificate in Information Technology — VMOU, Kota (2021)
- State-Level Science Fair Certificate — Environmental Resource Innovation (2017)
